

PRIVATE DINING ROOM

Momofuku Ko's Private Dining Room can seat groups of 6 to 14 guests. Guests are seated around a rectangular table constructed out of black walnut and flanked by a wall mural by acclaimed street artist David Choe.

THE MENU

In the Private Dining Room, Momofuku Ko typically offers a multi-course menu consisting of both individually plated and family-style dishes. Ko's chefs will develop a customized menu for your group based on the seasons and the highest quality ingredients available through our purveyors. Menus for the Private Dining Room may also be tailored to suit the requirements of our guests.

FULL BUYOUTS AT MOMOFUKU KO

Momofuku Ko's main dining room is available for full buyouts and can accommodate up to 25 guests seated at the kitchen counter.

For full buyouts, Ko typically serves a menu structured similarly to the restaurant's standard counter menu. Menus may be further customized to suit the requirements of our guests.

ABOUT MOMOFUKU KO

Ko has two Michelin stars, which it has retained for eight years. In 2014, Ko moved from its original location on 1st avenue to 8 Extra Place.

The Ko chefs revere both tradition and innovation in the culinary arts. Our chefs' primary objective is to challenge themselves daily to create the most delicious food possible – every dish is cooked à la minute and leaves no room for error.

The main dining room of Momofuku Ko is designed around an open kitchen. Guests are seated at a counter surrounding that open kitchen, as well as at two ancillary tables designed for larger groups.

LIKE THE CITY OF NEW YORK, we are a melting pot of culinary inspirations. Our menu is a collection of thoughts, tributes, and demonstrations of what we as individuals have learned or respected over the course of our culinary careers. What began as our interpretation of a kaiseki restaurant has evolved into something we think of as uniquely American.
